Amidst the Covid-19 pandemic, some industries have boomed and some has evolved. Our economy has accelerated the transition to digitalization, use of artificial intelligent and stringent health protocol.

A shift in mindset is necessary for businesses to transform digitally in order to survive the ongoing Covid-19 pandemic. And this change must come from both employers and employees - the willingness of firms to embrace technology and employees being open to upskilling and adapting to changes.

In fact, "attitudinal" training - the building up of a good mindset towards embracing change - is just as important as skills training, technologies in times of pandemic. Generally, many business owners tend to look for people within the industry when making a new hire, but there is value in opening up to people with diverse backgrounds in order to gain fresh perspective.

Companies will have to change their business models to survive, and workers whose jobs no longer exist will have to re-skill and move to new sectors.

在新冠肺炎疫情下，我国经济社会呈现出向数字化、智能化、健康化加速转型的态势，企业转型刻不容缓。

而企业在转型的同时，员工也必须跟上脚步，学习新技能和适应新的营运或商业模式，打造全新竞争力。

事实上，"态度"培训与技能培训同等重要。一般情况下，许多业主往往会找行业内的人，但如果开放给具有不同背景的求职者，您将可以获得新的视角的价值。

公司将需改变他们的商业模式才能生存，而工人将不得不重新学习新技能并转移到新的领域。

11:00am **Welcome Address** – *Peggy Lim, Director of Enterprise Engagement Office, SSG*

Trade Associations' Role in Cross-sector Hiring (SBF Jobs & Skills)
– *Teo Chi Howe, SBF Programme Lead*

– *Edmund Seng, Managing Partner for Artemis Search & Partners*

11:45am **Develop a Sustainable Skills Strategy through SkillsFuture Workplace Learning** – *Azizah Mohd, Senior Skills Specialist, NACE*

The Future of Work

Talent + Transformation

COVID-19 has shaped the new realities of work and catalysed transformation of both workplace and workforce. Enterprises will have to change their business models to survive, and workers have to re-skill or multi-skill to remain employable. Many enterprises struggle to build nimble, adaptable and resilient organisations, poised for the future. While it is relatively easier to acquire technology and implement new processes, people development is often the most challenging. Yet, talent is key in ensuring sustainable and successful transformation.

Besides building growth-centric organisation culture and mindsets, ensuring your talent are equipped with the right core skills is equally important. Learn how you can empower people to do what they do best. Discover how to develop a sustainable transformation strategy, driven by your people.

What do you need to know to prepare your workforce when your business rebounds from the coronavirus pandemic?
