**WEBINAR ON COVID-19 VACCINATIONS: PUBLIC HEALTH SCENARIOS AND IMPLICATIONS FOR BUSINESSES**

**18 MARCH 2021 FROM 10:00 AM TO 11:30 AM**

SBF is pleased to organise a complimentary webinar titled “**COVID-19 Vaccinations: Public Health Scenarios and Implications for businesses**”

**Overview**

Effective vaccines will have a game-changing impact on the control of the COVID-19 pandemic, and the return of normal economic and societal activities. However, progress towards these could potentially be undermined by the emergence of viral variants of concern and uncertainties about the pace and effectiveness of vaccination around the world. While employee health and safety remain a top priority, business leaders are also considering the next steps in their business plans. In particular, companies are asking:

- What are plausible scenarios which businesses should plan for?
- Are there sign-posts which business leaders could look out for?
- What role can employers play to contribute to our continuing national effort to overcome COVID-19?

Hear from Professor Tan Chorh Chuan, Chief Health Scientist at the Ministry of Health and a panel of business leaders on Singapore's COVID-19 vaccination plans, how businesses can continue to manage and maintain their operations and the implications of vaccination for businesses.

The details of the webinar are as follows:

**Date:** 18 March 2021 (Thursday)

**Time:** 10am to 11.30am

*Note: The Zoom access link will be sent to registered participants closer to the event date. **Please login 15 minutes prior to the event.***
